

# 10 Inch Rechargeable Energy Efficient Fan with USB Power Port

**O2 COOL**<sup>®</sup>  
cool by design™

**Model FD10006N00006**

## 10 Inch Rechargeable Energy Efficient Fan with USB Power Port

NEW & IMPROVED:

Nickel Metal Hydride batteries: more environmentally friendly & higher performance than Ni-CD batteries.

- Smart Power® Energy Efficient Technology: Runs on built-in rechargeable batteries, AC adapter (included), 6 ft. car adapter (included) or 8 D-cell alkaline batteries (not included)
  - **USB Power Port that will allow the user to charge their favorite personal electronic devices (PED) from either the built-in rechargeable batteries or the replaceable alkaline batteries. Chargeable items include cell phones, MP3 players, GPS devices, digital cameras or any other PED that can be plugged into a USB port.**
  - Ultra Velocity™ powered two-speed fan
  - Pivoting fan cage with handle
  - Compact design makes it great for travel and easy to carry and store
  - LED lights indicate power source
  - Up to 60 hours of alkaline battery life\* and 5+ hours of rechargeable battery life
  - Rechargeable batteries can charge up to 500 times, equivalent to using almost 60 sets of D cell batteries (8 batteries = 1 set) at \$8.00 per set (\$1 each x 8 batteries) over the normal life of the fan. **That is up to \$475 savings!!**
  - Our rechargeable batteries are energy-efficient and can be recycled when they are exhausted
  - US Patent D556,892; D546,933; 6,953,329; 7,825,615 and patents pending
  - Color: Gray
  - Retail packaging: Color box
- \*Final battery life depends on the age and quality of actual batteries used. Battery life is determined using low speed. Battery life is measured by one full charge and one set of alkaline batteries.
